

IDLE 1 MANUAL MULTIPLIERS

1. What are idle multipliers ?

- > Multipliers multiply your applied prestige
- > Nu. of multipliers are shown in the little bubble over the prestige button
- > They can be accumulated but all will be used in the first prestige reset
- > If you have any multiplier, offered prestige will be min '1'

2. How do we get multipliers ?

- > Multipliers accumulate in your 'idle' time. The more you stay off the game the more multipliers you'll have
- > Minimum 'idle' time to start getting them is 20 minutes

3. What contributes to multiplier calculation ?

Number of minutes off the game

Nu. of rounds in the last session

Number of machine calculations

If Sleeper modifier is on or off

Number of total rounds played

If Device time is coherent or not

Randomized Luck Factor: 0/1/2

If player is online to verify time

4. Table of 'Possibilities'

H = Hours of Idle Time

L = Got Lucky or not

T = Total Nu. of Rounds

R = Rounds Last Session

M = Nu of Multipliers

S = Sleeper on or off
