

## 1. Sound on / off

Turns all sounds OFF or ON, independent from the device setting. Especially useful if you play while listening to podcasts.

## 2. Distribution Chart

When ON, a distribution bar chart is shown on top, representing which color gets you what percentage of your profit. Useful to track your progress and priorities.

## 3. Upgrade Modes Bar

OFF: won't show the upgrade modes

ON: upgrade modes selectable when scrolled down

STICKY: upgrade modes always selectable and placed just above the add button

## 4. Join the Discord Channel

Links to the discord channel invitation page. You can chat with other players or easily reach developers for technical support.

## 5. Developer Store Page

Check out other games made by the same team. Exciting stuff on the way.

## 6. Contrast high / low

LOW contrast mode softens the colors and lowers the contrast. Makes the game healthier for sensitive eyes.

## 7. Top Info Options

ON: when scrolled up, shows POW value, number of ROUNDS (prestige resets) and WORLD progress

DETAIL: shows POW and prestige calculation, ROUNDS, WORLD no and LEVEL MULTIPLIER ranges

## 8. Creation Room

links to the Creation Room, where you can check out your modifiers. After 100 rounds game will start to offer small but increasing amounts of POW for Global Prestige.

## 9. IDLE 1 Manual

takes you to 'idle1.com' so you can view this manual
